

SWORD Bible Memory Instructions for use

The System:

This three year Bible curriculum has thirty-six Bible passages, one for each month. Year One is designated Old Testament and Year Two is New Testament on the top left of each card. These “years” are designed to work in tandem with the God’s Story Curriculum Old & New Testament materials, which have 1.5 years for each part. With each card there are three colors as follows:

Red (Basic - one verse per month)
suggested for preschool children

Green (Intermediate - two additional verses per month)
suggested for grades 1-4

Blue (Advanced - Three additional verses per month)
suggested for grades 5-Adult

Children as young as age three can begin memorizing the red verses. As your child gets older, additional verses (the verses in green) are added to form a passage. Eventually, when the blue level is complete, your child will have memorized a 6-9 verse passage from the Bible. The fun part is having your whole family memorizing the same passage together. You may have your preschooler doing one verse, your 4th grade student doing three, and you and your older children memorizing all six verses each month, with the whole family memorizing verses from the same passage!

SWORD Bible Memory

Instructions

Who it's for:

If Bible memorization intimidates you, you are not alone. Bible memorization does not need to be difficult. In fact, it can be a lot of fun. Having God's Word available to share from memory is an invaluable asset when encouraging others. This program is designed to get the whole family involved together, from three year-olds and up, memorizing Scriptures that are a part of the same passage. If you keep at it, you and your family will begin to make God's Word a part of everyday living.
